CIPRIAN CONSTANTIN IONIȚĂ

WEB DEVELOPER

PROFILE

Experienced Web Developer and Designer with a strong background in building conversion-driven web experiences. Expert in translating wireframes and mockups into responsive, high-performance websites using HTML5, CSS3, and JavaScript. Proficient in managing CMS platforms, including WordPress, and skilled in integrating analytics to track performance. Passionate about UI/UX best practices and technical SEO, with a proven track record of managing projects from concept to deployment.

WORK EXPERIENCE

Team Croco 2025 - PRESENT
Web Developer & Designer
- Develop and maintain dynamic WordPress and React-based websites.
- Translate design concepts from Figma into functional, pixel-perfect user interfaces.
- Collaborate with the design team to ensure consistent branding across all digital touchpoints.

Freelancer / Rian Digital Marketing 2015 - PRESENT
Web Developer & Designer
- Design, develop, and customize responsive websites and web applications for a diverse range of international and local clients.
- Optimize site performance, speed, and accessibility to ensure high conversion rates.
- Implement SEO-optimized landing pages and marketing websites, ensuring clean code and cross-browser compatibility.
- Manage end-to-end CMS updates, infrastructure (VPS/DNS), and technical troubleshooting.
- Integrate third-party analytics tools (GA4, GTM) and ad pixels to monitor campaign performance.

Iomin Print 2002 - 2005 / 2012 - 2015
Graphic Designer
- Created complex graphic designs for various printable media.
- Managed large-format printers and pre-press preparation, maintaining high standards for visual output.

NVA Galaxy Trading 2005 - 2009
DTP Operator
- Prepared layouts for books and magazines, demonstrating high attention to typography and visual hierarchy.

SKILLS

Programming Languages: HTML, CSS, JavaScript, PHP, SQL
